

## PRACTICE

The pianist is fed up with it

Ebony notes are graters, taking skin from glisses

The pianist is no cheesehead

Previously full of cheese, now lactose intolerance dismisses

The pianist is a virtual piano for the iPhone and iPod touch

She wonders if she will, like the cheese to intolerant persons, become obsolete.

The pianist is dynamic

Hair, makeup, larger than life expression, less about the music she speaks.

The pianist is a testimony to the power of music

Overtone notes are memories fading

The pianist is still learning.
